Built to perform, built to last.

Electric Driving Sweeper

S1350

FEATURES

- **1350mm sweeping path** greatly improves efficiency and shortens operational work cycles - effectively reducing labour costs.
- **Latest generation sinusoidal wave motor** promotes energy efficiency resulting in a saving of 40% in comparison with conventional motor technology. This also improves cleaning efficiency significantly.
- **Low decibel** – promotes suitability for noise sensitive areas.
- **Ergonomic design** enhances operator comfort.
- **Multi functional display** with battery indicator.
- **Roller brush and side brush pressures** adjustable to cope with different surfaces. Pliable dust proof strip with adjustable working positions allow smooth passing of speed bumps.
- **Water spray function** avoids dust distribution whilst operating. Vibration dust filter & pull out garbage trolley offer more convenient rubbish removal and tipping.
- **LED headlights** for working in dim lit areas.
- **Advanced lithium ion technology** for maintenance free performance and longevity.

Electric Driving Sweeper

S1350

Specifications

		S1350L
Sweeping path	mm	1350
Roller brush length	mm	700
Roller brush diameter	mm	400
Dimension	mm	L1470*W1000*H1200
Turning radius	mm	1250
Water tank	L	45
Garbage tank	L	80
Drive motor	W	800
Roller brush/side brush motor	W	800/90*2
Working speed	Km/h	0-8
Driving speed	Km/h	8-12
Gradeability	%	25
Productivity	m²/h	7100
Working hours	h	6-8
Battery	V/Ah	48V/60Ah
Tare weight (with battery)	Kg	335
Lithium battery		yes
